Residence telephones are installed with the understanding that they will be used for normal social or domestic purposes.

A residence telephone will be considered a business if the subscriber chooses to have a business listing in the telephone directory or the service is located in a commercially zoned area.

## Wiretapping

It is a crime under federal and state laws for any person to wiretap or otherwise intercept a telephone call, unless that person has first obtained the consent of one or both of the parties actually participating in the call. Properly authorized law enforcement officers can take part in interceptions without the consent of either party, when proceeding under court orders issued following the appropriate federal or state law.
