Calling Features / Metaswitch

SRT began the process of upgrading the network equipment that controlled landline voice calls in 2017. The upgrade moved customers from our old telephone switch, which is the piece of equipment that allows a voice call to reach the person being called, and moved customers to new equipment, called a Metaswitch. Customers who regularly use some of SRT's Calling Features may notice slight differences in how those features work. The following pages include updated step by step instructions for SRT's Calling Features on the Metaswitch. These instructions are also listed on srt.com under Phone.

Anonymous Call Rejection

You can reject incoming calls from calling parties who choose to keep their number private. The calling party will receive an announcement informing them that “the party you are trying to reach is not accepting calls from private numbers.” The calling party also hears “reverse your number privacy and try again.”

To enable Anonymous Call Rejection: Listen for dial tone and dial *77.

To disable Anonymous Call Rejection: Listen for dial tone and dial *87.

Call Forward Remote Activation

Activate and deactivate call forwarding from another telephone number. You must subscribe to Call Forwarding for this service to work.

Note: Pressing # after each entry will speed up the process.

A four-digit PIN is required for this service.

To set PIN number: This must be done from the landline telephone on which you have Call Forward Remote Activation.

META: Software is being used to randomly generate a PIN. To receive your new PIN, call SRT at 858-1200.

To change your META PIN:

1. Listen for the dial tone and dial *319.
2. You will be prompted to enter current PIN followed by the “#” sign.

3. You can announce the call or hang up and the two parties will be connected.
4. If you press the hook switch or flash again, you've established a 3-way call.

If you reach a busy signal, unanswered ringing line, or wrong number while attempting to transfer a call, press the flash button once to join the busy signal, ringing line, or wrong number with you and the original party. Press the flash button again to drop the busy signal, ringing line, or wrong number. You will remain connected to your original party.

Note: If you transfer a call out of your local service area, you will accumulate toll charges if the other two parties remain connected.

Note: If two calls are on a line at one time, anyone calling will receive a busy signal. A call waiting beep does not have to be answered.

Use of Residence Telephones for Business Purposes

Residence telephones are installed with the understanding that they will be used for normal social or domestic purposes.

A residence telephone will be considered a business if the subscriber chooses to have a business listing in the telephone directory or the service is located in a commercially zoned area.

Wiretapping

It is a crime under federal and state laws for any person to wiretap or otherwise intercept a telephone call, unless that person has first obtained the consent of one or both of the parties actually participating in the call. Properly authorized law enforcement officers can take part in interceptions without the consent of either party, when proceeding under court orders issued following the appropriate federal or state law.

Lifeline and Link-up

What is Lifeline?

Lifeline is a government benefit program supported by the Universal Service Fund that provides a discount on voice or broadband service for qualifying low-income consumers. Lifeline helps ensure that eligible consumers have the opportunities and security that these services bring, including being able to connect to jobs, family, and emergency services. Federal Lifeline support in the amount of \$9.25 per month will be made available to qualifying low-income consumers.

Qualifying for Lifeline Support

A consumer of SRT Communications must either have a household income that is at or below 135% of the Federal Poverty Guidelines, or participate in one of the following assistance programs:

- Supplemental Nutrition Assistance Program (SNAP)
- Supplemental Security Income (SSI)
- Medicaid
- Federal Public Housing Assistance
- Veterans Pension and Survivors Benefit Program

If you are requesting Lifeline on the basis of your household income, please refer to the Estimated Income Requirements for a Household at or below the Federal Poverty Guidelines. You may find this chart, which is revised annually, on the United States Department of Health and Human Services, website at <https://aspe.hhs.gov/poverty-guidelines>.

Important Notes for Eligible Consumers Nationwide

- Lifeline is available for wireline voice or broadband, or wireless voice or broadband services, however only one discount per household is allowed.
- Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.

Qualifying for Enhanced Lifeline and Link-Up Support on Tribal Lands

A consumer living on tribal lands may be eligible for enhanced Lifeline and Link-Up if he/she has an income at or below 135% of the Federal Poverty Guidelines, participates in any of the qualifying assistance programs for regular Lifeline and Link-Up, or participates in any of these additional qualifying

assistance programs for Enhanced Lifeline and Link-Up:

Tribal-Specific Programs

- Bureau of Indian Affairs General Assistance
- Tribally-Administered Temporary Assistance for Needy Families (TTANF)
- Food Distribution Program on Indian Reservations (FDPIR)
- Head Start (only households that meet the income qualifying standard)

Important Notes for Eligible Consumers Living on Tribal Lands

- Link-Up provides eligible low-income consumers living on Tribal lands with a one-time discount of up to \$100 on the initial installation or activation of a wireline or wireless voice or broadband service.
- Federal Lifeline support in the amount of \$9.25 per month will be made available to qualifying low-income consumers.
