Calling Features

SRT began the process of upgrading the network equipment that controlled landline voice calls in 2017. The upgrade moved customers from our old telephone switch, which is the piece of equipment that allows a voice call to reach the person being called, and moved customers to new equipment, called a Metaswitch. Customers who regularly use some of SRT's Calling Features may notice slight differences in how those features work. The following pages include updated step by step instructions for SRT's Calling Features on the Metaswitch. These instructions are also listed on srt.com/phone.

Anonymous Call Rejection

You can reject incoming calls from calling parties who choose to keep their number private. The calling party will receive an announcement informing them that “the party you are trying to reach is not accepting calls from private numbers.” The calling party also hears “reverse your number privacy and try again.”

To enable Anonymous Call Rejection: Listen for dial tone and dial *77.

To disable Anonymous Call Rejection: Listen for dial tone and dial *87.

Call Forward Remote Activation

Activate and deactivate call forwarding from another telephone number. You must subscribe to Call Forwarding for this service to work.

Note: Pressing # after each entry will speed up the process.

A four-digit PIN is required for this service.

To set PIN number: This must be done from the landline telephone on which you have Call Forward Remote Activation.

NOTE: Software is being used to randomly generate a PIN. To receive your new PIN, call SRT at 858-1200.

To change your PIN:

1. Listen for the dial tone and dial *319.
2. You will be prompted to enter current PIN followed by the “#” sign.

2. Listen for a confirmation tone and dial the telephone number where you want to transfer the call.
3. You can announce the call or hang up and the two parties will be connected.
4. If you press the hook switch or flash again, you've established a 3-way call.

If you reach a busy signal, unanswered ringing line, or wrong number while attempting to transfer a call, press the flash button once to join the busy signal, ringing line, or wrong number with you and the original party. Press the flash button again to drop the busy signal, ringing line, or wrong number. You will remain connected to your original party.

Note: If you transfer a call out of your local service area, you will accumulate toll charges if the other two parties remain connected.

Call Waiting

While you're on a call, Call Waiting alerts you that you have another incoming call.

Note: If two calls are on a line at one time, anyone calling will receive a busy signal. A call waiting beep does not have to be answered.

How it alerts you:

Wiretapping

It is a crime under federal and state laws for any person to wiretap or otherwise intercept a telephone call, unless that person has first obtained the consent of one or both of the parties actually participating in the call. Properly authorized law enforcement officers can take part in interceptions without the consent of either party, when proceeding under court orders issued following the appropriate federal or state law.

Lifeline and Link-up

Lifeline is a government benefit program supported by the Universal Service Fund that provides a discount on landline and broadband service for qualifying consumers. Lifeline helps ensure that eligible consumers have the opportunities and security that landline phone and broadband service brings, including being able to connect to jobs, family, and emergency services.

Qualifying for Lifeline Support – Non-Tribal and Tribal

A consumer of SRT Communications, must either have a household income that is at or below 135% of the Federal Poverty Guidelines, or participate in one of the following assistance programs:

- Federal Public Housing Assistance (FPHA) or Section 8
- Supplemental Nutrition Assistance Program (SNAP)
- Bureau of Indian Affairs (BIA) general assistance program
- Medicaid
- Veteran Pension & Survivor Pension Benefit
- Supplemental Security Income (SSI)

If you are requesting Lifeline on the basis of your household income, please refer to the Estimated Income Requirements for a Household at or below the Federal Poverty Guidelines. You may find this chart, which is revised annually, on the United States Department of Health and Human Services, website at <http://aspe.hhs.gov>.

Important Notes for Eligible Consumers Nationwide

Lifeline is available for wireless, landline and broadband services, however only one discount per household is allowed. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.

Important Notes for Eligible Consumers Living on Tribal Lands

Link-Up provides eligible consumers living on Tribal lands with a one-time discount of up to \$100 on the initial installation or activation of a wireless, landline or broadband service for the primary residence.

Minimum Service Standards

Landline – unlimited local calling, toll charges will apply at your long distance company's rates.

Broadband – speed of 25x3 Mbps, and usage allowance to 1024 GB. If 25x3 Mbps is not offered, any generally available residential package that meets the minimum service standard qualifies for Lifeline.

Lifeline Support Level Phase-Down

	Landline	Broadband
12/1/2019	\$7.25	\$9.25
12/1/2020	\$5.25	\$9.25
12/1/2021	\$0.00	\$9.25

How Can I Sign Up?

The Federal Communications Commission (FCC) is now using a National Lifeline Eligibility Verifier to review an applicant's Lifeline eligibility. You can apply for Lifeline by visiting www.CheckLifeline.org by selecting your state in the drop down menu on that site. Once the National Verifier approves your application, contact SRT to activate your Lifeline benefits.

For more details, contact the FCC at 1-888-225-5322 voice, 1-888-835-5322 TTY, or by mail at FCC, 445 12th ST SW, Washington, DC 20554. You may also visit the FCC's website at www.lifeline.gov.
